Courses of Study.

The outlines of the three courses of study in the Collegiate and Preparatory Departments of the institution explain themselves. It is believed that these courses will continue to commend themselves as thorough, conservative and yet progressive, and as being abreast of those pursued in the best of our sister institutions.

The English-Scientific Course, which has now had five years of trial, has approved itself to many who could not find the time or money to take either of the other courses. It is two years shorter than the Classical Course, and one year shorter than the Latin-Scientific Course. To all who wish a liberal English education, we can confidently recommend this course as being the best possible substitute for those which we deem the best courses of study, *i. e.*, those that give the discipline of mind that comes through the study of the classics and of the higher mathematics. The degree of Bachelor of Science will be given the graduates in this course.

SECOND TERM.

Natural Science.—LeConte's Geology; three hours a week.

Mathematics.—Olmsted's Astronomy; three hours a week.

Philosophy.—Porter's Moral Science; five hours a week for four months.

Theology.—Evidences of Christianity; five hours a week for two months.

Bible.—One hour a week.

Rhetorical Drill.—One hour a week.

Maryville College.

HISTORY.

Maryville College is a venerable institution. It is more than threescore and ten years old, for it was founded in 1819. It was born of the moral and spiritual needs of the earliest settlers of East Tennessee, chiefly Scotch-Irish Presbyterians, and was designed to educate for the ministry men who should be native to the soil. The grand motive of the founder may be stated in his own words: "LET THE DIRECTORS AND MANAGERS OF THIS SACRED INSTITUTION PROPOSE THE GLORY OF GOD AND THE ADVANCEMENT OF THAT KINGDOM PURCHASED BY THE BLOOD OF HIS ONLY-BEGOTTEN SON, AS THEIR SOLE OBJECT." Inspired by such a motive, Rev. Isaac Anderson, D.D., gathered a class of five in the fall of 1819, and in prayer and faith began the work of his life. In forty-two years the institution put one hundred and fifty men into the ministry. Its endowment, gathered by littles through all these years, was only sixteen thousand dollars.

Then came the Civil War, and suspended the work of the institution for five years, and the College came out of the general wreck with little save its good name and precious history.

After the war the Synod of Tennessee, moved by a spirit of self-preservation and by a desire to promote Christian education in the Central South, resolved to revive Maryville College. The institution was reopened in 1866. New grounds and new buildings were an imperative necessity. To meet this need, sixty-five thousand dollars were secured, and the College was saved from extinction. Nine years ago a few generous friends contributed an endowment fund of one hundred thousand dollars. Two years ago Daniel B. Fayerweather bequeathed to the College the sum of one hundred thousand dollars, to which munificent bequest the residuary legatees added the generous amount of fifty thousand dollars. Of this one hundred and fifty thousand dollars more than half has

already been received. These magnificent donations have enabled the institution to enlarge its work and to enter upon a new era of usefulness and influence. More than eighteen hundred students have been in attendance since the war. Of these, one hundred and twenty-eight have graduated in the Classical Courses. More than fifty of these Alumni have entered the ministry. Nineteen Alumni and undergraduates have been or are missionaries in Japan, China, Corea, India, Persia, Syria, Africa and Mexico. Several are laboring in missions on the Western frontier. All the Alumni are engaged in honorable pursuits. Students who have gone from the College to theological, medical and legal schools, have usually attained a high rank in their classes. Seven of the seventeen annual first honor medals offered in the Medical Department of the University of Tennessee, at Nashville, were won by former students of Maryville College. A goodly number of the Alumni are now studying in theological seminaries.

The necessary expenses are so low as to give the institution a special adaptation to the middle class and to the struggling poor—the great mass of the surrounding population.

The privileges of the institution are open alike to all denominations of Christians.

LOCATION.

Maryville is a pleasant and thriving town of about two thousand five hundred inhabitants. There is no saloon in Blount county. Maryville is widely known as "the town of schools and churches." It is the present terminus of the Knoxville & Augusta Railroad, and is sixteen miles distant from Knoxville. Knoxville is approached from the South and West via Chattanooga, or Dalton, or Marietta; from the North and Northwest via Junction City (Danville) and Jellico, or via Harriman Junction, or via Cumberland Gap; from the Southeast, via Asheville; from the Northeast, via Lynchburg and Bristol.

GROUNDS AND BUILDINGS.

The College grounds consist of two hundred and fifty acres, and for beautiful scenery are not surpassed by any in the country. They are elevated and undulating, covered with a beautiful growth

of evergreens and with a noble forest, and command a splendid view of the Cumberland Mountains on the north, and of the Smoky mountains on the south.

The location is as remarkable for its healthfulness as it is for its beauty. The campus affords the choicest facilities for the development of athletics.

On these grounds there are six buildings, which were erected at a cost of eighty-three thousand dollars.

The central building is adapted to college purposes and is used exclusively for them. In honor of the founder of the institution it is called ANDERSON HALL. The large addition to this Hall, THE FAYERWEATHER ANNEX, is described elsewhere. BALDWIN HALL, named in honor of the late John C. Baldwin, of New Jersey, is occupied by the young ladies. Not long since it was thoroughly renovated without and within, and with its new paint, papering and wainscoating, presents a very attractive appearance. The reception parlor has recently been refitted. In this Hall ample and pleasant accommodations for board are provided by the Coöperative Boarding Club for all the members of the institution who choose to board there. MEMORIAL HALL is occupied by the young men. It has recently been refitted and papered throughout, and now compares favorably with Baldwin Hall in neatness and comfort. In the basement of Baldwin Hall are six kitchens and in that of Memorial Hall are ten, for the benefit of students who prefer to board themselves. These Halls are large and convenient, well lighted and ventilated, and will accommodate one hundred and thirty students. The College also owns one PROFESSOR'S HOUSE. The LAMAR MEMORIAL LIBRARY building is spoken of on another page. THE PRESIDENT'S RESIDENCE was provided in 1890 by a munificent gift of Mrs. Jane F. Willard. It adorns College Hill and is a valuable property. It bears the following inscription:

PRESIDENT'S HOUSE,

ERECTED AS A MEMORIAL OF HER HUSBAND,

SYLVESTER WILLARD, M.D.,

BY

MRS. JANE F. WILLARD,

1890.

ADMISSION TO THE COLLEGE.

Candidates for admission to the Freshman Class that have taken their preparatory course elsewhere, will be examined in the studies pursued by the Senior Class of the Preparatory Department of this College, or in their equivalents, unless they bring certificates that will be satisfactory to the Faculty.

Candidates for admission to the Sophomore, Junior and Senior Classes are examined in the studies that have been pursued by the class which they wish to enter, or in others equivalent.

Those bringing certificates of dismission from another college may, upon proof of their qualifications satisfactory to the Faculty, be admitted to a corresponding standing in this College.

Those students who are absent from their classes for a part of the year must sustain a satisfactory examination in the studies pursued by the class during their absence before they can reënter it.

Students who desire to pursue only a part of the studies of any course laid down in this catalogue may be allowed to do so in connection with the regular classes by special permission of the Faculty.

Candidates for admission and students who in any examination receive conditions, will be required to cancel them within the time designated by the Faculty.

Every student who offers himself for admission must present a testimonial of good character from some responsible person.

MUSIC.

All students, unless they are excused for special reasons, attend a class drill in Vocal Music. These classes meet every alternate day. The results of the drill in this department during the past year have been most gratifying.

Miss Agnes B. Clemens, B.L., has charge of the department of Instrumental Music. She has had great success in her efforts to improve the work in this department. A pleasant room in Anderson Hall has been neatly fitted up by the College for the Music Room, and an expensive and rich-toned piano placed in it. There is also a piano in the Music Room at Baldwin Hall that is used by the young ladies of that Hall in their daily practice. The following students have taken instrumental music under Miss Clemens during the past year:

Eugenia S. Anderson, Mrs. Barnes, Mattie Bond, Fred Boyd, Mabel Broady, Nannie Broady, Ora Broady, Ova Broady, Kate

Caldwell, Pearl Clemens, Dennis Crawford, Stella Crawford, Miss M. E. Henry, Cornelia Howard, Cora Hughes, Walter Griffen, Frank Iddins, Amrette Jones, Nellie Keith, Addie Kidd, Annie Kidd, Nettie Lord, Effie Magill, Jennie Mathes, Augusta Muecke, Annie Newby, S. B. Parker, Emma Parks, Ida Parsons, Mary Roberts, Frank B. Van Fossen, and Sophia Young.

RHETORICAL DRILL.

The students meet in different classes for one hour every week to present essays and declamations to be criticised by the Professor who has charge of the department. This drill in practical composition and elocution is given all the students of the institution. It is designed that all shall acquire a scientific knowledge of the principles of vocal expression. Special attention is given to the development and quality of the voice in articulation and modulation. At least once each term the classes give public exhibitions of their work in composition and delivery.

ELECTIVE STUDIES.

Any student may, if the Faculty consent, pursue any study not in his course, provided always that it does not interfere with his regular work.

Whenever a class of sufficient size can be formed, a year's instruction in Hebrew will be given.

Spanish is an elective study. Eleven students have taken it under Prof. Wilson during the present year.

DEGREES.

The Degree of BACHELOR OF ARTS is conferred upon all graduates of the Classical Department. The Degree of MASTER OF ARTS is conferred upon any BACHELOR OF ARTS who has been engaged in literary or scientific pursuits for no less than three years since his graduation, and who has during that period sustained a good moral character.

The Degree of BACHELOR OF LETTERS will be conferred upon those who have completed the Latin-Scientific Course of Study.

The Degree of BACHELOR OF SCIENCE will be conferred on graduates of the English-Scientific Department.

Students who do not take a regular course, may, upon a satisfactory examination, be granted a certificate with regard to their proficiency in the studies they have pursued.

The following degrees were conferred at the last annual Commencement, May 26, 1892: A.B.: Ambrose Lafayette Jones, John Ephraim Love, William David Malcom, William McClung, Samuel Wells Sherrill and Oliver Campbell Wallace. B.L.: Susanne Baker, Lula Edmondson, William Edward Hamilton, Jennie Clementine McColloch and William Harry Pittinger. B.S.: Annis Duncan. A.M.: William W. Hastings and Rev. Prof. Herman A. Goff. D.D.: Revs. Edgar A. Elmore, Israel W. Hathaway and Alexander Cameron McKenzie. LL.D.: Prof. Reynold W. Wilcox, M.D.

GRADING.

A uniform system of grading is employed, upon the results of which depends the promotion of the student from one class to another.

The Faculty meet every two weeks of the college year, and receive reports of the work done in all the departments and of the delinquencies of individual students. Every month a record is made of the standing of each student, which is sent to his parents or guardian at the end of each quarter.

RELIGIOUS EXERCISES.

The College is preëminently a religious institution. All its instructors are in deepest sympathy with the doctrine that the culture of the soul is of the first importance. The history of the past has been one of gracious revivals. Besides the daily worship conducted in the Chapel, religious services are held every Tuesday evening, at which a professor of the College presides. The Y. M. C. A. and Y. W. C. A., established and conducted by the students, exert a most salutary influence upon the entire College. The Y. M. C. A. meets in its new room in the FAYERWEATHER ANNEX. The Y. W. C. A. meets in the parlors at BALDWIN HALL. The past year has been one of prosperity in the history of these Associations. The officers of the Y. M. C. A. are: President, Frank H. Marston; Vice-President, George H. Lowry; Corre-

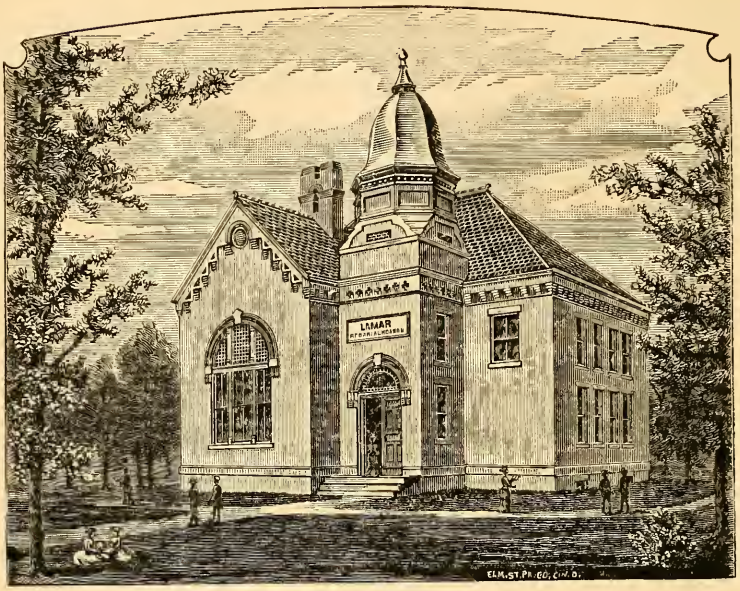
sponding Secretary, Samuel W. Boardman, Jr.; Recording Secretary, Horace L. Ellis; Treasurer, Kin Takahashi. The officers of the Y. W. C. A. are: President, Miss Effie M. Meader; Vice-President, Miss Mary Roberts; Recording Secretary, Miss Helen Brant; Corresponding Secretary, Miss Cora Hammontree. A building for the Y. M. C. A. is greatly needed. Combined with the much-needed gymnasium, it would be a Godsend.

BIBLE STUDY.

Systematic study of the English Bible is part of the permanent College curriculum. During the past year all the professors and instructors have had weekly classes for the study of the Scriptures. It is expected that every part of the Word of God will, in time, be brought under careful examination. The text-book employed has been Steele's Outlines of Bible Study. A generous gift of the Misses Willard—$200, to be expended in providing text-books and other aids for Bible study—has been of great assistance in developing this department of study. In the Junior year of the Classical Course the Bible study is devoted to the New Testament in Greek.

SOCIETIES.

The three Literary Societies connected with the institution are of the greatest benefit to those who faithfully avail themselves of the advantages they offer. The BAINONIAN, established in 1875, is composed of young ladies; the ATHENIAN, established in 1868, and the ALPHA SIGMA, established in 1882, are composed of young men. All these organizations have neatly furnished rooms—the BAINONIAN in the FAYERWEATHER ANNEX and the others in ANDERSON HALL—where they meet every Friday night to engage in debates and other literary exercises. All the societies give a public midwinter entertainment. During the past two years the ATHENIAN and the ALPHA SIGMA Societies have each sustained "Junior" Societies for the special benefit of the less advanced students. The ADELPHIC UNION LITERARY SOCIETY, which is composed of the three Societies already mentioned, gives an annual public entertainment during Commencement week.



THE LAMAR MEMORIAL LIBRARY.

Five years ago the Lamar Memorial Library Hall was erected at a cost of five thousand five hundred dollars, which amount was generously provided by three friends of Professor Lamar and of the College. The building is a model in every respect. It is a noble and fitting monument. The large memorial window contributed by the brothers and sister of Professor Lamar holds the central position.

The Library itself is now one of the largest in East Tennessee. Several hundred volumes have been added during the past year. The entire number of books now on the shelves is over ten thousand. A reference alcove is open six hours every day, while the entire Library is open three hours every day for the drawing of books. The advantages of the Library are entirely free to the students of all the courses. The results of the use of the Library are manifest in the increased literary culture and general information of the students, and in their better preparation for their forensic exercises.

The Librarian gratefully acknowledges the following donations received during the current year: Maryville College Club of Japan,

$14.27; Rev. J. H. Cooper, for the GEORGE GLENN COOPER ALCOVE, $50; John C. Branner, Ph.D., for the JOHN C. BRANNER ALCOVE, 3 books; U. S. Government Departments at Washington, many donations; Hon. John C. Houk, M.C., many donations; many Colleges and Universities, catalogues and monographs; Ladies of Cincinnati, 65 books; Rev. David A. Heron and relatives, to found a DR. JOHN W. HERON MEMORIAL ALCOVE, 44 valuable books on Missions; Rev. J. H. Aughey, 1 book; Mrs. Carrie Lord Follett, 3 books; balance of contribution of Rev. D. Stuart Dodge, $2.50; Reynold W. Wilcox, LL.D., 1 book; an English author, 2 books; Mrs. John W. Sheddan, 2 books; S. P. C. A., 2 books; Dr. J. A. Coles, 1 book; Volta Bureau, 1 book; Mrs. Sarah J. Rhea, 1 book; Leach, Shewell & Sanborn, 1 book; Miss Mary T. Lord, 4 books; Hon. Thomas N. Brown, State Senator, and Hon. Andrew Gamble, State Representative, many donations; Columbian Art Co., 1 book.

JAMES R. HILLS LIBRARY.

During the past five years the students have enjoyed the privileges of the James R. Hills Memorial Loan Library. By a fund of six hundred dollars, generously contributed by Miss Sarah B. Hills, of New York, the College is enabled to rent the text-books used in the institution to those who cannot afford to buy them. The rate charged per term is one-fifth the wholesale price of each book. The income of rentals is devoted to supplying new books as they are needed. The usefulness of this library can hardly be overestimated.

JOHN C. BRANNER LIBRARY.

Two years ago John C. Branner, Ph.D., State Geologist of Arkansas, gave another proof of his generosity and friendship to the College by establishing a Loan Library of the text-books used in the Natural Science Department. He contributed one hundred dollars for this purpose. The books in this library are under the same regulations as are those of the Hills Library.

THE MISSES WILLARD LIBRARY.

Through the generosity of the Misses Willard, of Auburn, N. Y., the text-book employed in the Bible classes is also provided for rent at a nominal charge.

APPARATUS.

The College possesses a good assortment of chemical and physical apparatus. The chemical laboratory and the physical apparatus have been separated, and each now occupies a separate room. To the apparatus previously on hand there have been made, during the past year, several important additions.

The principles of all subjects studied are fully illustrated by experiments performed in class. Phenomena are observed, and the student is taught to interrogate nature rather than to question the teacher.

THE NATURAL SCIENCES.

The order of study of the various branches of Natural Science has been changed and the work greatly strengthened. The student begins his work of investigation early in his course, and, so far as possible, is brought into actual contact with the thing studied.

The successful adoption of laboratory practice in all parts of our country proves the superiority of this method over that of reciting from memory the mere descriptive lessons furnished in so many texts on Natural Science.

To extend and facilitate this kind of work outlines are furnished or indicated by the teacher, and the student is taught to search nature for answers to his various interrogations.

It is the paramount aim of this department to furnish such class of work only, and to employ such methods as are best adapted to make the student careful, systematic and self-reliant, as well as scholarly, and at the same time to inculcate in him a deeper love for nature and for his Creator.

MUSEUM.

A large and valuable Museum of specimens to facilitate the study of the Natural Sciences, and a collection of relics and curiosities to illustrate history and travel, have been made.

Specimens previously on hand have been separated and classified for more efficient use in class work.

Constant additions are being made to the Museum. During the year just closed there have been obtained of the Smithsonian Institution, at Washington, over a hundred species of American Fishes; these are preserved in alcohol and arranged in separate

jars, in this way affording excellent advantages for study, and at the same time making a fine display of the specimens.

Within the same period there have also been secured three hundred specimens of American Lichens; of this number one hundred and fifty are natives of Tennessee. The members of this collection have been carefully classified and arranged in separate boxes, and now occupy a prominent place in the Museum.

It is with a just pride we call attention to these collections, at the same time soliciting further contributions to this department. The receipt of the following additional donations is gratefully acknowledged: Pacific Ocean Shells from Yaquinna Bay, Prof. J. E. Love; East Indian Fan, Rev. L. B. Tedford and wife; Stones from the top of Fuji-Yama and Japanese Beetles, Miss Cina Porter; Sea Mole from Florida, R. W. Post; Calamite, Miss Mary Roberts; Talc, George H. Lowry.

ALUMNI ASSOCIATION.

This Association was formed in 1871, and holds its annual meeting in the College Chapel, on Thursday of Commencement week. The officers for the present year are as follows: President, Rev. H. A. Goff, '85; Vice-President, Miss Mollie Caldwell, '91; Secretary, Rev. Prof. S. T. Wilson, '78.

ATHLETIC ASSOCIATION.

This Association, organized to develop and systematize athletic sports and gymnastic exercises, has had a prosperous year. Manly men are the leading spirits in the organization. Mrs. Cyrus H. McCormick, of Chicago, gave great encouragement and help to the Association by a donation of one hundred dollars. The officers are as follows: President, Harvey B. McCall; Vice-President, Robert P. Walker; Secretary, John A. McCulloch; Treasurer, Robert C. Jones.

TERMS AND VACATIONS.

There are two terms in the collegiate year, the first extending from the first of September to about the 23d of December, and the second from the first of January to the last Thursday of May.

EXPENSES.

The endowment enables the College to make its charges very moderate. Students rooming in College buildings each pay for room rent $3.00 per session, or $6.00 for the year. The tuition bill is $5.00 per session, or $10.00 for the year. No other charges except for music, shorthand, type-writing, and advanced book-keeping. There are no incidental fees.

No deduction will be made for absence at the beginning and the close of the terms. College bills must be paid invariably in advance. Until this condition is complied with, no one can become a member of any of the classes. All students who wish to room in Memorial Hall are required to make a deposit of fifty cents with the Janitor. This sum is a pledge that the room taken will not be abused, and it will be returned to the student at the end of the term if no damage has been done the room.

Fuel, lights, and washing, per term, about .	$10 00
Board in the Coöperative Boarding Club, per week, about	1 25
Board in private families, including furnished room, fuel, lights, and washing, per week, ...	1 50 to 3 00
Music — Piano, organ, per quarter (twenty lessons), ...	5 00
Use of piano, per term, ...	3 00
Type-writing, higher book-keeping, and shorthand, for each, ...	5 00

The Coöperative Boarding Club is spoken of below.

Good and convenient kitchens, furnished with cooking stoves and tables, are provided for such students as may prefer to board themselves. The College does not furnish cooking vessels with the stoves. Students whose circumstances require, may unite in clubs of two or more and board themselves at $1.00 per week.

The rooms in Baldwin Hall are furnished with stoves, bedsteads, wash-stands and tables. The rooms in Memorial Hall were once furnished by the College, but hereafter the young men must provide any article that may be missing. Students must supply their own bedding.

The entire expense for the students for board, tuition, room

rent, fuel, light, and washing, for the collegiate year, will be from $75.00 to $120.00. This estimate is made on the supposition that two students occupy one room.

STUDENTS' COÖPERATIVE BOARDING CLUB.

A Students' Coöperative Boarding Club was formed at the beginning of the College year, and under the efficient charge of Mrs. A. A. Wilson, of the Mt. Nebo summer resort, has been very successful in furnishing good board at a very low rate. The actual cost of the board is found at the end of each month, and the average price has been only $1.25 per week during the year. The students have shown their appreciation of the Club, and more than eighty have belonged to it. The young ladies have the privilege of doing a certain amount of work, and receiving credit for it, thus materially reducing the cost of their board.

MEANS OF SELF-HELP.

Some of the students have organized a Self-help Association, and have been able to continue in College through the entire year chiefly with the money earned after recitation hours, and on Saturdays. The College gives the Association what work it can apportion to them.

ABSENCE FROM THE COLLEGE.

It is very important that students should be present at the beginning of each term and continue to the end of it. Parents are requested not to withdraw their sons and daughters towards the end of the year, without consulting the Faculty. Only in cases of extreme necessity should a student leave his studies just before the close of the collegiate year. Rooms in the College buildings will be reserved especially for those who intend to remain to the end of the year.

ADMINISTRATIVE RULES.

Students are not allowed to keep firearms in their rooms.

The use of tobacco on the College grounds and in the College buildings is forbidden, and no student addicted to its use will be allowed to room upon the College premises. One violation of this rule will be deemed sufficient to exclude a student from Memorial Hall.

All unexcused delinquencies are registered; and when the number amounts to fifteen, notice thereof is given to the student, and to his parents or guardian. When the sum of unexcused delinquencies and demerits amounts to twenty-five, the student ceases to be a member of the College. A delinquency is a failure to perform any College duty.

Students are also dismissed whenever, in the opinion of the Faculty, they are pursuing a course of conduct detrimental to themselves and to the College.

Students are not allowed to absent themselves from the College without permission from the Faculty.

Students are not permitted to engage in dramatic entertainments, and must secure special permission before engaging in any entertainment outside the College.

Students from other institutions cannot be admitted into this College unless honorably dismissed by their former instructors.

Prayers are attended in the College Chapel in the morning, with the reading of the Scriptures and with singing; and the students are required to attend public worship on the Sabbath, and to connect themselves with a Bible Class in some one of the churches in town.

BEQUESTS AND DEVISES.

Since each State has special statutory regulations in regard to wills it is most important that all testamentary papers be signed, witnessed and executed according to the laws of the State in which the testator resides. In all cases, however, the legal name of the corporation must be accurately given, as in the following form:

"I give and bequeath . . . . to the 'BOARD OF DIRECTORS OF MARYVILLE COLLEGE,' at Maryville, Tennessee, and to their successors and assigns forever, for the uses and purposes of said College, according to the provisions of its charter."

SPECIAL NEEDS.

Some of the especial needs of the College are a Dining Hall, a building for the use of the Y. M. C. A. and for a Gymnasium, and a building and equipments for the Department of Natural Sciences, and scholarships to aid needy students.

PRIZES.

A gold medal has been offered by Mr. James Thornton to the student in the Freshman or Sophomore Classes in the Classical and Latin-Scientific Courses, who shall have the highest average grade in the regular studies of the year. A gold medal has also been offered by Hon. Will A. McTeer to the student in the Preparatory Departments of the Classical and Latin-Scientific Courses who shall have the highest average grade in the regular studies of his year. These prizes will be conferred at Commencement. The winners of the prizes last year were: College medal, Samuel W. Boardman, Jr.; Preparatory medal, Charles B. Moore.

THE CARSON ADAMS FUND.

This fund, amounting to about seven thousand dollars, was bequeathed to the College by the Rev. Carson W. Adams, D.D., of New York, who died October 12, 1887. "This fund is to be kept in perpetuity by the Trustees of said College, and to be called the CARSON ADAMS FUND. The income from it is to be expended in paying the tuition fees of indigent students, male or female." All applications for aid from this fund must be made in writing to the College authorities, and be accompanied by satisfactory proofs of character and needy circumstances on the part of the applicants.

THE FAYERWEATHER ANNEX.

As the result of the Fayerweather bequest, which is being received in installments, the College has been enlarging its facilities for successful work. On October 22, the inauguration of the addition to ANDERSON HALL—THE FAYERWEATHER ANNEX—took place in the presence of a large audience. The building is employed for the use of the Preparatory Department of the College, and with its large and commodious rooms has been of great benefit in providing for the academic work and in relieving the crowded condition of the College building. The Annex is ninety feet by forty, and is three stories high.

THE GEORGE HENRY BRADLEY SCHOLARSHIP.

A scholarship of $1000, the income of which is to be used in aid of needy students, has been founded by Mrs. Jane Loomis Bradley, of Auburn, N. Y., to be called the "George Henry Brad-

ley Scholarship," in memory of the only son of the donor and of the late Silas L. Bradley, President of the Bank of Auburn.

It is hoped that this may be followed by a goodly number of such scholarships. They are much needed.

BUSINESS DEPARTMENT.

During the past year Prof. Warfel has conducted classes in type-writing and advanced book-keeping, while Prof. Waller has had a class in Munson's system of shorthand. Classes will be formed in these branches at the opening of the fall term.

THE PREPARATORY DEPARTMENT.

The efficiency of the Preparatory Department has been greatly increased by the erection of the FAYERWEATHER ANNEX, and by an increase in the teaching force. Students in this Department study under the eye of a teacher, and are given especial drill in those studies in which they are deficient. During the coming year there will be four rooms, equipped and furnished with all the necessary appliances, with four teachers under the charge of the Principal.

IMPROVEMENTS.

Besides the new building, other improvements have been made during the current year. The interior of ANDERSON HALL has been painted and decorated throughout, much to its improvement. Electric lights have been introduced into the large double chapel, and elsewhere in the buildings and on the grounds.
